## Eco-Friendly Bags

Compostable & Biodegradable  
Virgin and Recycled Fibers from  
well managed forests

## High Strength

Kraft bags that offer strength  
reliability and quality.

# Carbon Footprint

Eco Friendly

- ✓ Paper Bags that are compostable and biodegradable
- ✓ Virgin and recycled fibers from well managed forests.
- ✓ Manufacturing methods that maintain a carbon-neutral footprint.

The raw material used in papermaking – cellulose fibre extracted from wood – is a renewable and ever-growing natural resource. Due to their natural characteristics, our bags degrade when they mistakenly end up in nature.
